

REMARKS

The 11/08/2003 Office Action brings to Applicant's attention that Figures 16A and 16B of the drawings are missing. Such Office Action further notes that the specification of the subject application is missing headings for various sections thereof.

With regards to the alleged missing drawings, Applicant submits that this informality actually corresponds to inadvertent typographical errors in the specification that make reference to such drawings (Figures 16A and 16B). All drawings that were intended to be submitted for this application were originally submitted. The portion of the specification that refers to Figures 16A and 16B should refer to the original Figures 15A and 15B, while the portion of the specification that refers to Figures 15A and 15B should refer to the original Figures 14A and 14B. The support for this is clearly seen in the discussion of such Figures on pages 27-28 of the original specification in the discussion of Examples 2 and 3.

In light of the above situation, the substitute specification presented herein is intended to correct the inadvertent typographical errors originally presented with regards to such Figures 16A and 16B of the application. Several other inadvertent typographical misrepresentations also recently brought to Applicants attention are further presented in the presently submitted substitute specification. Such amendments do not add any new matter.

With regards to the aspect of missing headings brought to Applicant's attention in the 11/08/2003 Office Action, the presently submitted substitute specification provides amendments to clearly indicate the following sections of the application: TITLE OF THE INVENTION, BACKGROUND OF THE INVENTION, SUMMARY OF THE INVENTION,

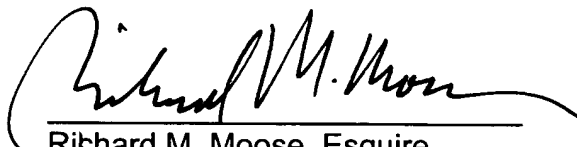

BRIEF DESCRIPTION OF THE SEVERAL VIEWS OF THE DRAWINGS, and
DETAILED DESCRIPTION OF THE INVENTION. Such amendments do not add any
new matter and are presented merely to conform the application to be in accordance
with 37 CFR §1.77(b).

Applicants submit that the presently submitted amendments address the formal
matters brought to attention in the 11/08/2003 Office Action. Inasmuch as all such
outstanding issues have been addressed, it is respectfully submitted that the present
application is in condition for allowance, and acknowledgement of such is earnestly
solicited. The Examiner is invited to telephone the undersigned should only minor issue
remain after consideration and entry of this Amendment and Remarks in order to permit
early resolution of the same.

Respectfully submitted,

DORITY & MANNING,
ATTORNEYS AT LAW, P.A.
